

Virtual Entrepreneurship Internship Program

Are you finding it challenging to secure internship opportunities for your students at local entrepreneurial businesses or help them meet career readiness standards?

Our **Virtual Entrepreneurship Internship Program** will expose your students to what it is like being an entrepreneur and developing a successful business from the ground up. This year-long program prepares students prior to stepping into a physical workspace, and gives them the opportunity to test and try concepts in a risk-free simulated environment. And unlike a physical internship, your students will get to experience and manage all aspects of creating their own business. They'll gain valuable skills and get to uncover which areas they like most and where they'd like to focus in the future, or major in at college.

Key Benefits

- Students will have 20 different business type options to choose from
- Students will design and write a business plan for their entrepreneurial idea
- Students will do market research, create their elevator pitch, and learn how to raise money to fund their business
- Meets career readiness, preparation, and workplace essential standards
- Includes an exciting end-of-year culminating project
- Gives teachers all the lessons, activities, tools, and resources to help students find success
