

Virtual Restaurant Internship Program

Are you finding it challenging to secure internship opportunities for your students at local restaurants, or help them meet career readiness standards?

Our **Virtual Restaurant Internship Program** can expose your students to the exciting and high demand hospitality industry. This year-long program prepares students prior to stepping into a physical workspace, and gives them the opportunity to test and try concepts in a risk-free simulated environment. And unlike a physical internship, your students will get to experience and manage all aspects of a restaurant. They'll gain valuable skills and get to uncover which areas they like most and where they'd like to focus in the future, or major in at college.
